

It is a pleasure to announce the new Major Account Solutions (MAS) agreement between the Canadian Red Cross (CRC) and Canadian Rental Association (CRA). Through this agreement, CRA members will receive access to discounted first aid training and products across Canada.

CRA discounts for first aid training courses across Canada include:

- Emergency First Aid with CPR/AED (1-day course)
- Standard First Aid with CPR/AED (2-day course)

First Aid Training

Courses are taught by highly trained Red Cross First Aid Instructors. Our instructor base completes an extensive certification and recertification process to keep up with the latest teaching strategies and the latest first aid and CPR science. In many cases, our Instructors are front-line professionals – firefighters, emergency medical responders, and nurses – who can enhance courses through their own experience and knowledge.
